|---|-----|
| 8. Offer a well organized presentation ?                          | 4.8 |
| 9. Display good subject knowledge ?                               | 4.8 |
| 10. Use appropriate style(s) of presentation ?                    | 4.9 |
| 12. Provide adequate opportunities for questions and discussions? | 4.7 |

#### Additional Comments:

Awesome - took the most sophisticated knowledge and made it understandable. THANK YOU.

Best CE I've attended at a conference thus far

Very, very good presentation. Instructor kept interest of class. Dynamic!

Very interesting content and well spoken presenter.

*Please turn over.....*

This was great. The only things I would have liked were a longer session and ideas on where to go to learn more.

Great discussion of Open Access and ethical considerations of this topic.

Excellent teaching style - presented material in a very clear manner.

Excellent powerpoint. Yes being aware of the huge amount of info in databases - can refer researchers to these sources or to UBC.

Lovely teaching style - v. relaxed. Good activity to define bioinformatics. Good approach to take us from Pubmed (with which we are very familiar) to nucleotide - made content relevant to the Library

Excellent presentation and presenter.

Excellent Joanne. Thanks!

### **SUGGESTIONS FOR FUTURE COURSES:**

More courses like this that are outside our "traditional" realm of librarianship.

### **YOUR BACKGROUND**

- 3 Academic health sciences library
- 3 Hospital library - teaching
- Hospital library - non-teaching
- 2 Government library
- Association library
- Corporate library
- 2 Other (specify)
